

Table A – Results of Internal Review Committee

Date of Report: June 28, 2005

Water Body Under Evaluation:

Identification #: 0929
Name: West Fork Post Oak Creek
Length of Segment: 0186
County (ies): Johnson

Use Attainability Analysis Study:

Identification #: 0186
Submitter: Tetra Tech, Inc.
Date Received: July 14, 2005
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Completeness Check:

All Required Information Included? ☒ Yes ☐ No
Correct Forms Used? ☒ Yes ☐ No
Forms Signed and Dated? ☒ Yes ☐ No
Comments:

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
☐ 3-Non-Remedial, Human Caused Condition.
☐ 4-Hydrologic Modifications.
☐ 5-Natural Physical Features.
☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in June 2005 and no WBCR was observed. The stream did not meet the maximum or average depth criteria at any of the 6 sites evaluated. Site number 373 seemed to have a mistake since the average depth criteria exceeded the maximum depth criteria. All other sites were well below the criteria. No interviews were conducted. Since the overall depth of the stream was shallow, the committee recommends removing the WBCR designation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive

Committee Members: Stacia Bax, Ann Crawford, Donna Menown
